

Hosank membership agreement

You can join Hosank if you agree to the following five points:

- 1) Accept our fundamental ideas (or most of the ideas) outlined in the 15 Pillars of the Hosank Manifesto. For our movement to be successful, we must all be on the same ideological plane and act as one whole body.
- 2) Members of the movement are obligated to respect each other. You have to accept that the movement is authoritarian and there is a clear order. A movement has a Leader who must respect the followers of the movement and the followers of the movement must respect the Leader. The Leader is obliged to listen to all reasonable opinions and constructive criticisms of the members of the movement, but the final decision must be made by the Leader of the movement, which the followers of the movement are obliged to follow, and they are also obliged to loyally carry out the tasks given by the Leader of the movement, if they are within the limits of their ability, because it will benefit the entire movement, of which all members are a part, including you. Major decisions related to the movement should not be made without the permission of the Leader or his designated leaders. If we want to advance the movement, it must have a clear organized structure and order.
- 3) Our movement is a legitimate political movement and the members of the movement should have exemplary behavior by staying away from degenerate criminal practices. The members of the movement should stay away from the people who will try to provoke and harm our movement. You have to be far-sighted, patient and steadfast, mentally prepared for a long struggle, because with the banner of eternity we have not fixed our eyes on the next year or the next election or even the next decade, but on eternity.
- 4) As a member of the movement, you are obligated to maintain a proper and dignified character as much as possible. You will be a part and representative of the movement, therefore it is important to present the movement correctly by presenting yourself correctly.
- 5) Be ready to fight for the interests of the Armenian nation by actively contributing to the development of our movement, no matter how small the contribution may be, because individually we are just pitiful electrons, but together we are a Current (Hosank).

In violation of any of these points, you may be removed from the movement by the order of the Leader or one of his designated leaders.
